DETAILED ACTION

Election/Restrictions

1. Restriction to one of the following invention is required under 35 U.S.C. 121:
 - I. Claims 1-9 are drawn to reviewing, updating, and accessing service data using a graphical user interface via data networks and classified in class 709, subclass 223.
 - II. Claims 10-21 are drawn to accessing and providing call ID information from a subscriber's remote access and classified in class 379, subclass 88.01.
2. The inventions are distinct, each from the other because of the following reasons: Inventions I and II are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, invention I has separate utility, usable alone, such as the ability to review, update, and access telecommunication service data using a graphical user interface via a plurality of data networks. Invention II has separate utility, usable alone, such as the ability to access and provide call ID information from a subscriber's remote access. See MPEP § 806.05(d)
3. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, and the search required for Group II is not required for Group I, restriction for examination purposes as indicated is proper.
4. A telephone call attempt was made to Mr. Alan Lenkin (40063) on 12/02/2003 to request an oral election to the above restriction requirement, but did not result in an

Art Unit: 2142

election being made since the examiner was unsuccessful in reaching Mr. Lenkin by telephone.

5. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

6. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
